WELCOME

Feilding High School is a progressive co-educational secondary school that has served the Feilding and surrounding Manawatu District since 1921. We have a proud tradition of academic, sporting and cultural achievement. Our roll is approximately 1500.

Traditional school values of courage, respect, honesty and striving for excellence, together with a modern curriculum, quality teaching and use of new information technology are what we offer our students.

Feilding High School has outstanding facilities and spacious, attractive grounds. We have an attached boarding hostel, L.J. Wild House, which caters for 180 boys and girls. The school also has two farms which support our extensive curriculum.

We offer a disciplined and caring learning environment for students. Our vision is to enable students to reach their potential by providing them with knowledge, skills and qualifications. We invite you to be part of our future.

OUTDOOR EDUCATION

An Outdoor Education Programme runs at Year 10. Information will be forwarded to parents early in the school year regarding this.

ICT / DIGITAL CITIZENSHIP – STUDENT ACCEPTABLE USE POLICY

Included in this prospectus is the school policy which all students and caregivers must read, and agree to abide by.

YEAR 9 PROGRAMME STRUCTURE

All students will study year-long courses in English, Mathematics, Science, Social Studies plus one term of Health and one of Physical Education. As well as these core subjects, students will study seven ten week options chosen from groups of subjects. Please refer to page 3 of the enrolment form for these groupings.

NOTES:

Students wishing to study Te Reo Maori (full year) or two languages need to consult with the Year 9 Deans as these choices will limit the number of options that can be studied.

Students who intend to continue with French or Japanese in Year 10 must take part in the extension course offered in Term 4. Students wanting to take the extension options will be organised during the year in consultation with the parents / caregivers.

Students cannot choose the same subject more than once, but may choose Physical Education and a Sport Performance course.

DESCRIPTIONS OF THE YEAR 9 OPTION SUBJECTS

AGRICULTURE

Students will learn about the importance of agriculture in New Zealand and the different farming systems in use. The school farms will be visited regularly to learn about pastures and how to produce wool, meat, and milk. There is a small course fee to cover transport to the school's Manawanui farm.

ART

Students will learn to solve problems and express ideas whilst making a study of line, shape, form, colour, tone, texture, pattern and space.

COMMERCE

Students will learn about the fundamentals for economic and financial understanding: the financial and economic matters that affect us all from budgeting for households and government, to personal financial record keeping and basic economic decision making.

DESIGN AND VISUAL COMMUNICATION

Students will learn about the design process and formal drawing techniques. Students use these methods to solve problems and communicate ideas through drawing.

DIGITAL TECHNOLOGY

Students will learn about the idea of computational thinking: the process of looking at ways in which computer devices and software can be used to solve problems.

DRAMA

Students will complete practical work to build the basic skills of storytelling and characterisation in improvisation and mime. The practical work is supported by written work which is completed daily to reflect achievements and challenges related to the work.

FOOD TECHNOLOGY

Students will learn about a variety of topics which include preparing and cooking a range of foods that incorporate different techniques and processes. An introduction to product development and the design process is also included.

FRENCH

Students will learn French by hearing, speaking, reading and writing the language. They will also learn about France, the French, and their ways. Students who intend to continue with this subject in Year 10 must take part in the extension course offered in Term 4.

HORTICULTURE

Students will learn about the world of plants and its significance to New Zealand and the region's economy. Students will raise seedlings, propagate plants from cuttings, and learn how to successfully manage plant growth.

JAPANESE

Students will learn by speaking, reading and writing the language. They will also learn about Japan, the Japanese, and their ways. Students who intend to continue with this subject in Year 10 must take part in the extension course offered in Term 4.

MUSIC

Students will learn to play an instrument. It is not necessary to have previous musical experience. Students will take tuition in at least one of the following instruments:

<i>Auxiliary Percussion</i>	<i>Baritone</i>	<i>Bass Guitar</i>	<i>Clarinet</i>
<i>Cornet</i>	<i>Euphonium</i>	<i>Flute</i>	<i>Saxophone</i>
<i>Snare Drum</i>	<i>Trombone</i>	<i>Trumpet</i>	

All of these instruments are taught at school through the Instrumental Vocal Tuition scheme. This class will be run as a junior orchestra; students will be performing every class time.

SPORT PERFORMANCE

Students will learn about high performance sport in their chosen code. Nutrition, game strategy and technique development will be covered alongside completing a strength and conditioning programme. The codes offered are Rugby, Football and Hockey, and Basketball and Netball.

Places are limited and will be prioritised based on sporting performance and attitude.

TE REO MĀORI

Students will learn to speak, read and write about their whānau; learn basic mihimihi and tikanga; and participate in learning waiata and mahi toi. Students will study "Whānau" for the whole term.

This course runs during Term 1 after which students may continue with the full year course if they so choose.

TE REO MĀORI (FULL YEAR)

Students will further develop their speaking, reading and writing in Te Reo Māori and participate in learning waiata and mahi toi. A strong emphasis is given to tikanga Māori.

TE AO MĀORI

Nau mai, haere mai! The Te Ao Māori course will provide students with the opportunity to gain a respect for Māori knowledge and tikanga and an understanding of traditional and contemporary Māori views. Students will actively participate in a range of different learning experiences at local marae and interact with and within their school and community environment, practising and applying tikanga as it applies to local mana whenua. They will become aware of the links between the views, values, beliefs and tikanga of themselves and others.

'He kai kei āku ringa'

This course does not require knowledge of te reo Māori.

Course Outline / Key Topics Covered

A project-based course will be developed to meet the interests and needs of the students and to teach via student engagement in problem-solving and exploration.

Kaupapa may include: Whakapapa, myths and legends, Atua Māori, Kaitiakitanga, Tikanga Māori, Pōwhiri. Manaaki Manuhiri, Māori history, a Māori Leader, a waka study, Māori Performing Arts.

TECHNOLOGY HARD MATERIALS

Students will learn to use and apply the design process to design and make their own solutions. Students will be introduced to a range of materials (wood, metal, plastics), tools, machines and processes to enable them to produce practical outcomes in a safe environment.

TECHNOLOGY TEXTILES

Students will learn a range of skills which will enable them to design and make a soft material item of their choice. Skills covered include the use of sewing machines, over-lockers and a range of handcraft.
